

Business Forum Industri

# Framtidens Logistik för Industrin

Dan Pettersson

One in four container movements around the globe is handled by a **Kalmar solution**.

Digitalization

Autonomous

Eco-efficient

Integrated service

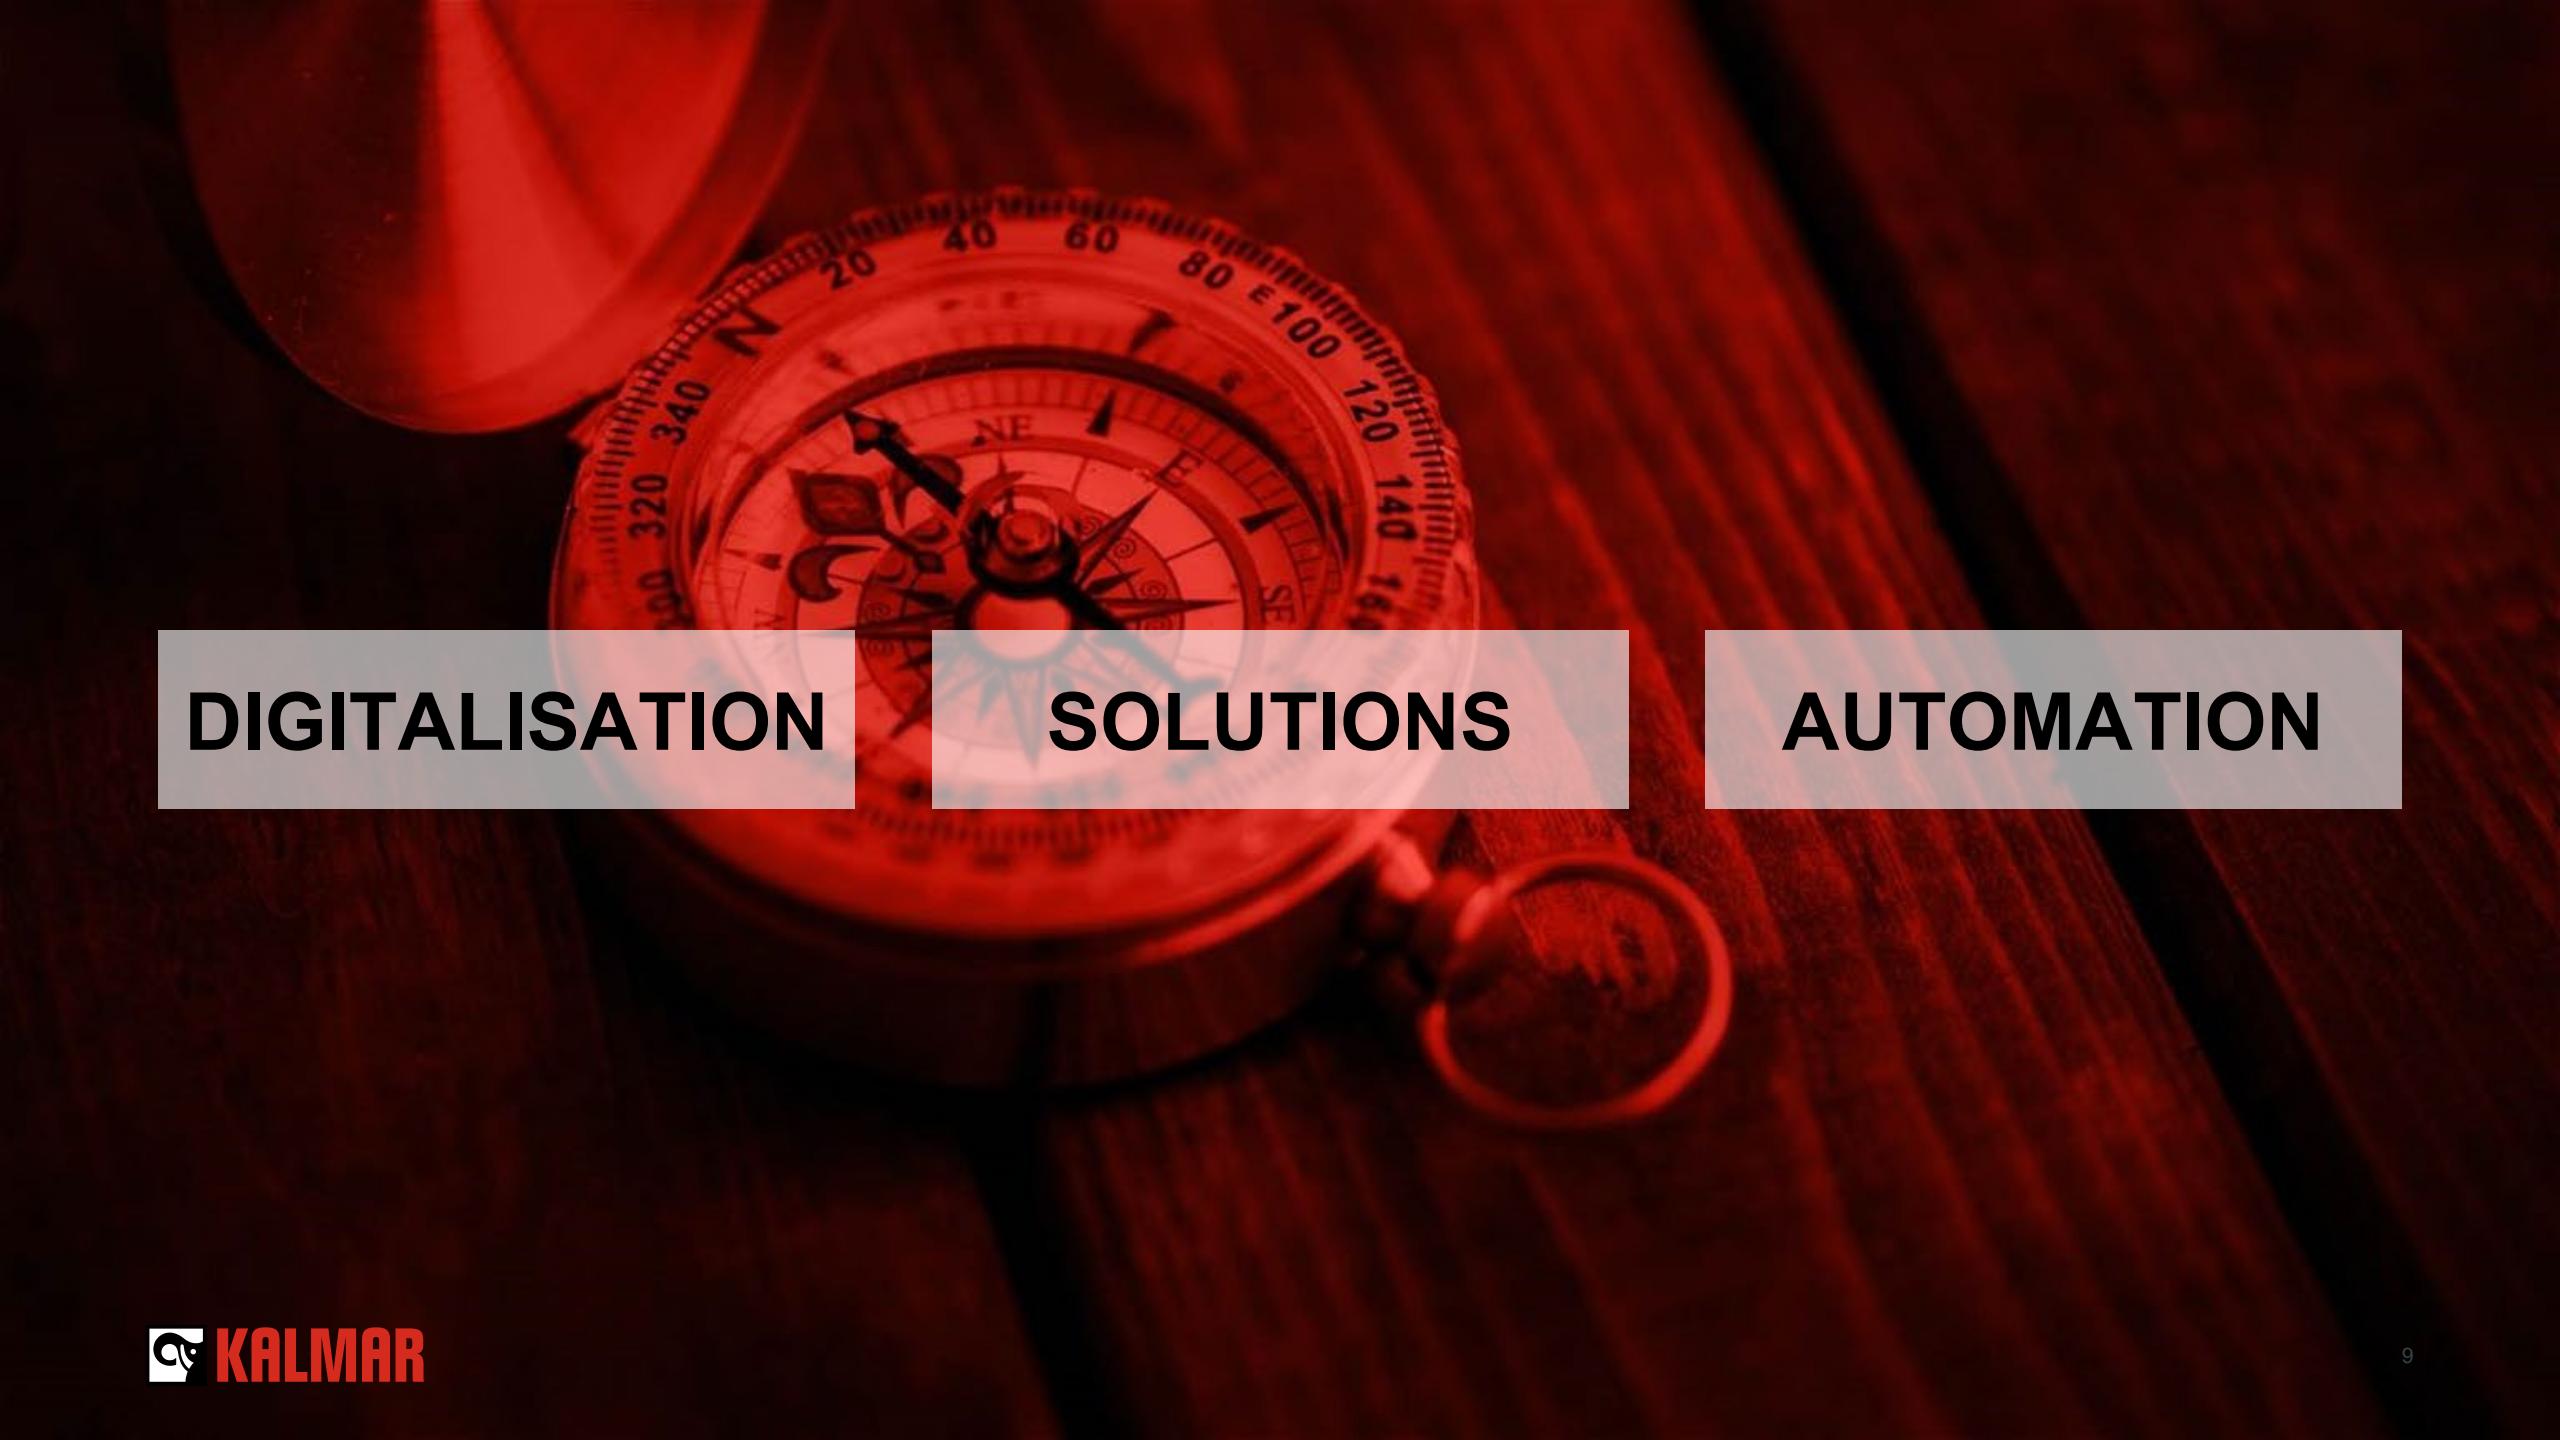

Industrial Design

New Technologies

**DIGITALISATION**

**SOLUTIONS**

**AUTOMATION**

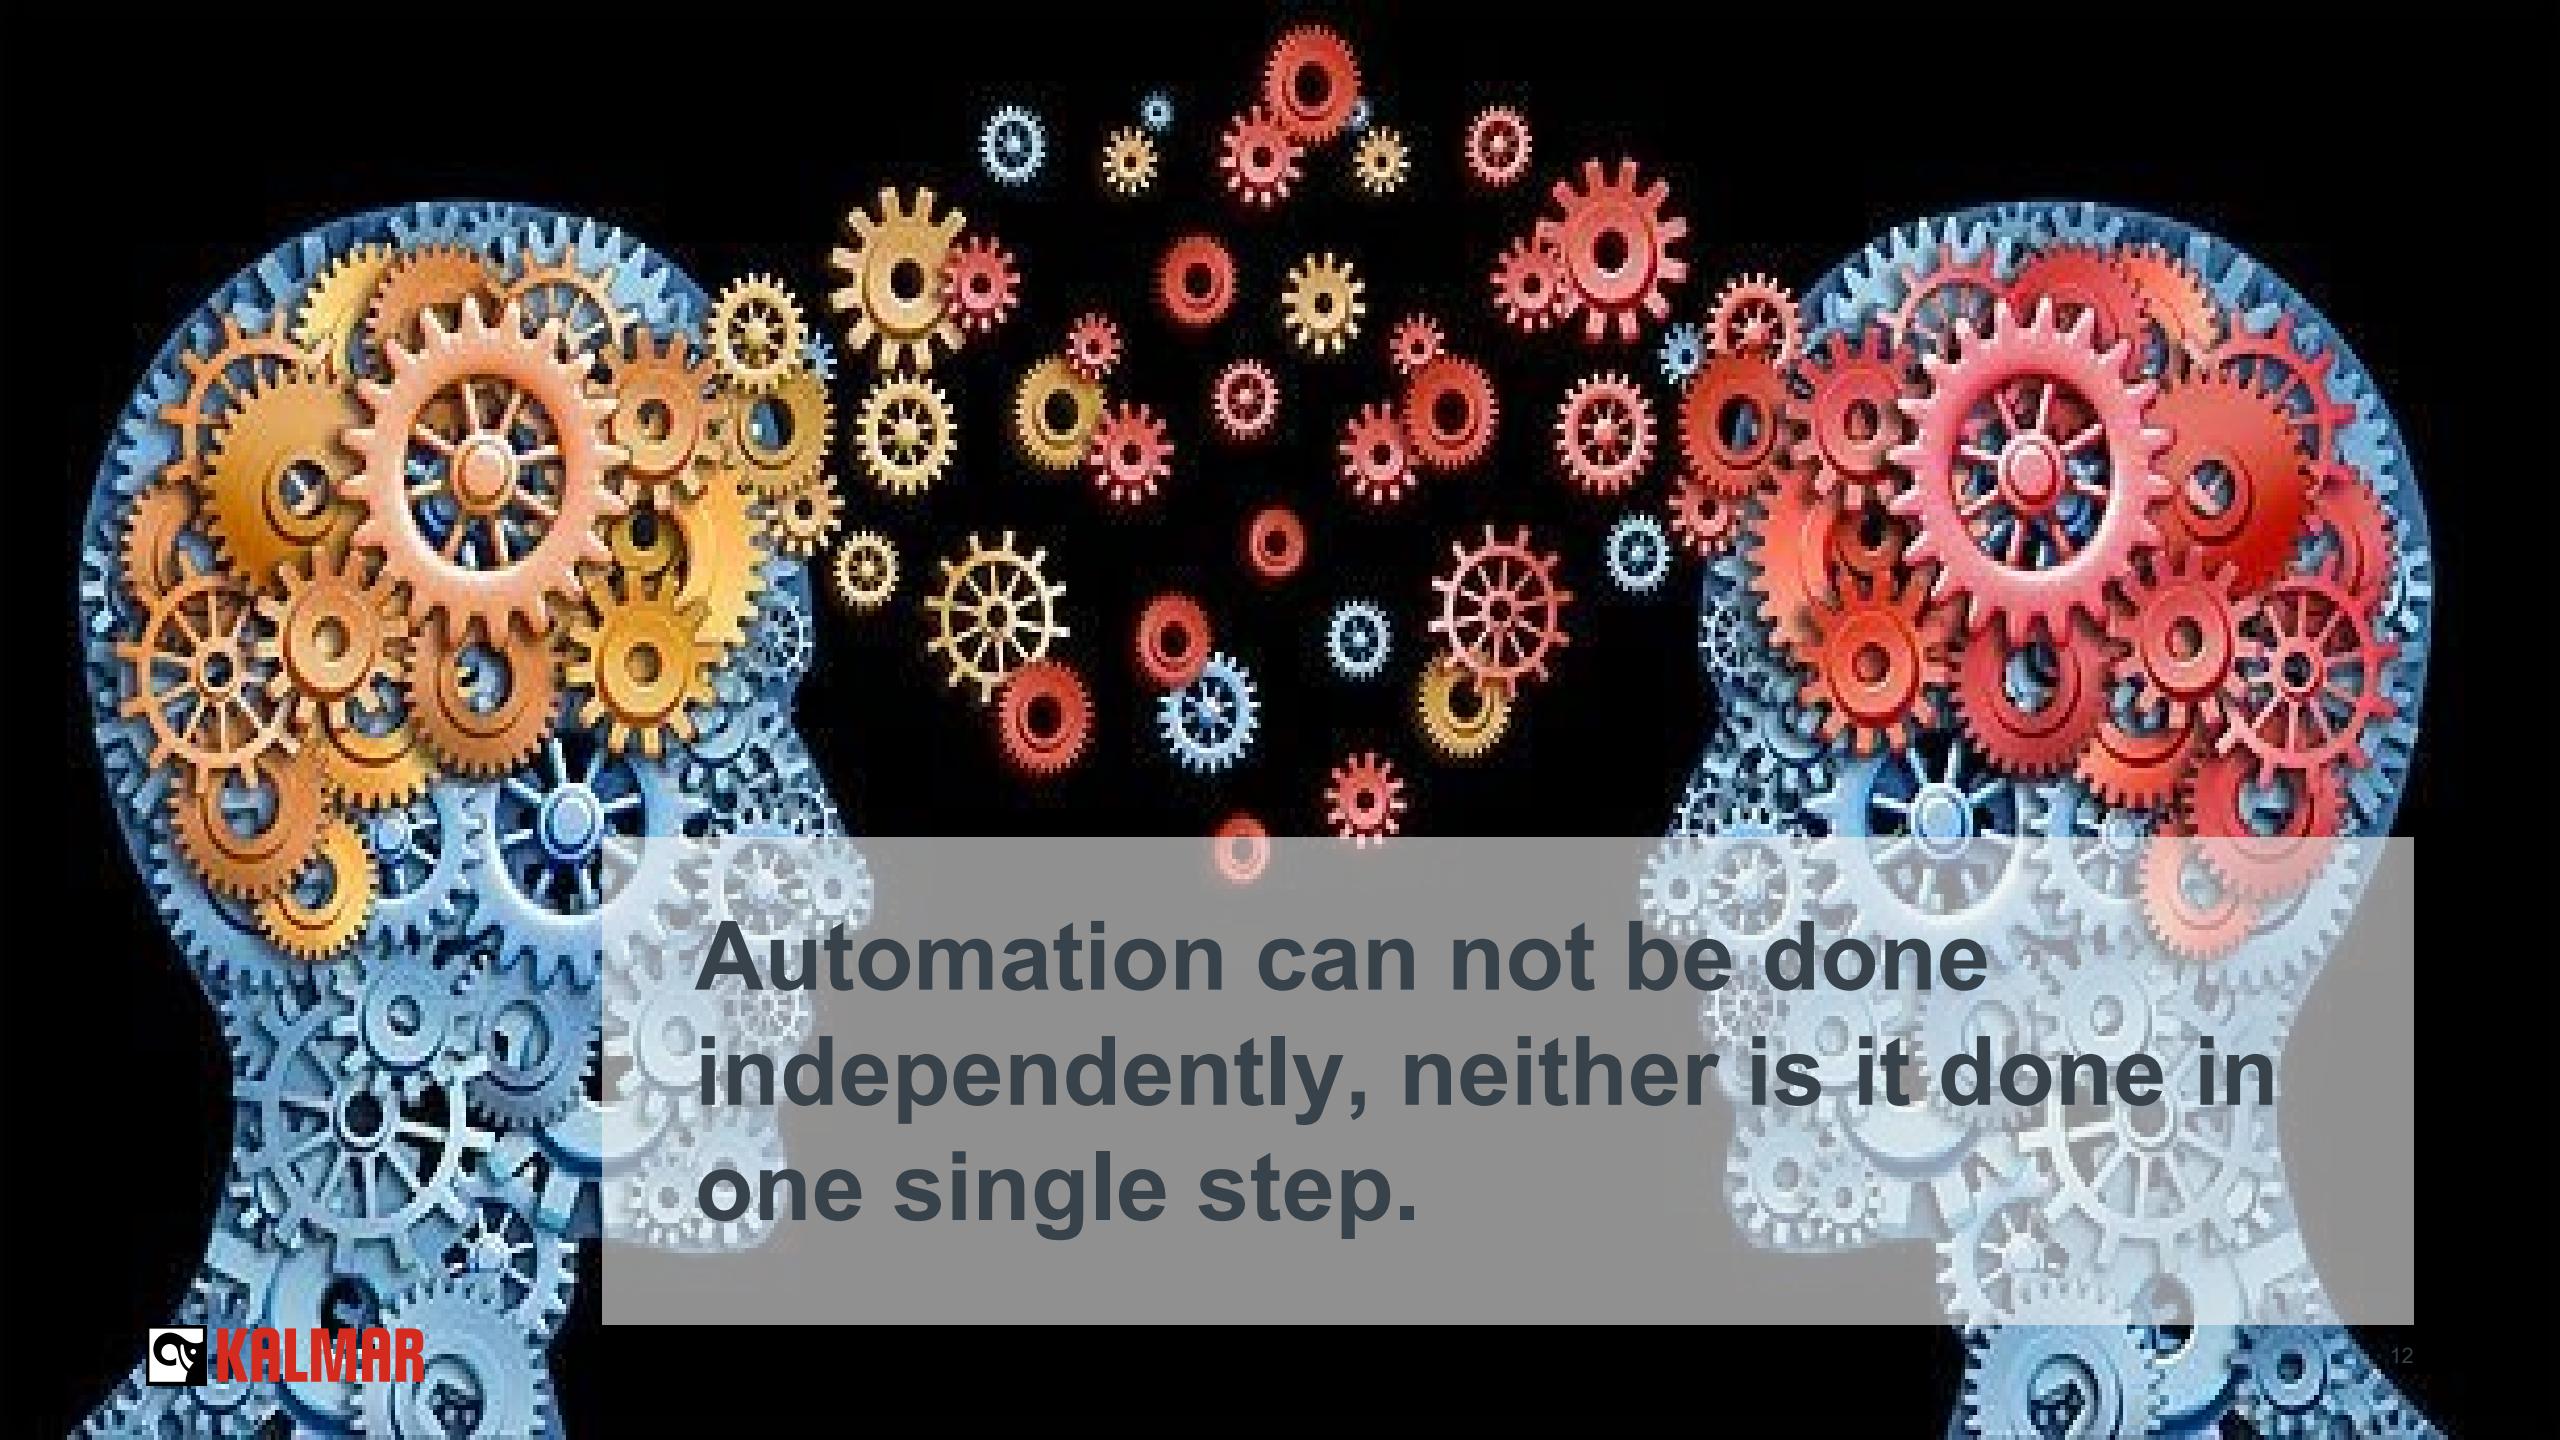

**“The goal is to turn data into information, and information into insights”**

*Carly Fiorina*

Maintaining software and networks  
are the “oil filter changes” for the  
fleets of the future.

**Automation can not be done  
independently, neither is it done in  
one single step.**

**Safe, more sustainable and  
productive through collaboration**

Making your every move count.
